

Quiz: QPNUKLM

# MathShed

Stage 2

Autumn Block 2: Addition and Subtraction

Lesson 1: To be able to use numbers bonds to 10

Term: Autumn Unit: Block 2 – Addition and Subtraction Lesson: 1

To be able to use numbers bonds to 10

MathShed

**Starter:**  
Which is the odd one out?

Explain your answer

To be able to use numbers bonds to 10

MathShed

**Activity 1:**  
Ruth has these cubes.

How many purple cubes does Ruth have?  
How many yellow cubes does Ruth have?  
How many cubes does Ruth have altogether?

To be able to use numbers bonds to 10

MathShed

**Activity 2:**  
Can you continue the pattern and find all of the number bonds to 10?

$1 + 9 = 10$      $2 + 8 = 10$      $3 + 7 = 10$

To be able to use numbers bonds to 10

MathShed

**Activity 3:**  
Ruth puts some counters on 3 tens frames.

How many more counters does she need to fill each of the tens frames?

To be able to use numbers bonds to 10

MathShed

**Activity 4:**  
How many more are needed to make 10?

$10 = \_ + 3$      $10 = \_ + 1$   
 $10 = \_ + 4$      $0 + \_ = 10$   
 $2 + \_ = 10$      $\_ + 5 = 10$

To be able to use numbers bonds to 10

**Activity 5:**

Chen has 10 counters in his hands.

He says, "I have 2 counters in one hand"

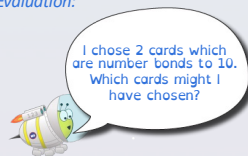

How many counters are in Chen's other hand?

To be able to use numbers bonds to 10

**Evaluation:**

I chose 2 cards which are number bonds to 10. Which cards might I have chosen?

What 2 cards do you think Astrobee has picked?
