

To be able to identify multiples of whole numbers 

**Starter:**  
Which one doesn't belong?

Explain your answer.

To be able to identify multiples of whole numbers 

**Activity 1:**  
Put a cross over any number that is not a multiple of 5.

55      40      63      900      87      5,555

What do you notice about multiples of 5?

To be able to identify multiples of whole numbers 

**Activity 2:**  
Respond to the following statements in full.

- a) 2,345 is not a multiple of 2.  
True or false?
- b) 5,432 is not a multiple of 5.  
True or false?
- c) 1,234 is a multiple of 10.  
True or false?
- d) 2,310 is a multiple of 2, 5 and 10.  
True or false?

To be able to identify multiples of whole numbers 

**Activity 3:**   
Draw two digit cards from 1 – 6 each time, then complete the table below:

Card 1	Card 2	Product	Multiple of...
3	4	12	1, 2, 3, 4, 6, 12

To be able to identify multiples of whole numbers 

**Activity 4:**   
Draw two digit cards from 1 – 9 each time, then complete the grid below:

x	1	2	3	4	5	6	7	8	9
1									
2									
3									
4									
5									
6									
7									
8									
9									

Do some multiples fit in more than one space?  
Which number(s) appear most often in the table?  
Why might that be?

To be able to identify multiples of whole numbers 

**Activity 5:**  
Solve the word problems below.

- a) Jamal has an amount of money that is a multiple of nine and is three less than a multiple of seven. It is more than £10, but less than £40. What amount of money does Jamal have? Explain your answer.
