

To be able to add equal groups

MathShed

Starter:
What's the same? What's different?

Explain your answer.

To be able to add equal groups

MathShed

Activity 1:
Complete the sentences below.

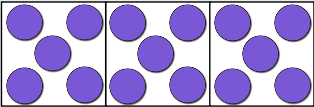

There are _ apples on each plate.
There are _ equal groups.
There are _ 5s.
_ + _ = 10

To be able to add equal groups

MathShed

Activity 2:
Complete the sentences below.

There are _ counters in each group.
There are _ equal groups.
There are three _s.
_ + _ + _ = 15

To be able to add equal groups

MathShed

Activity 3:
Complete the table below:

	Add it
<p>Say it There are _____ equal groups with _____ cubes in each group. There are _____ cubes in total.</p>	Draw it

To be able to add equal groups

MathShed

Activity 4:
Which one doesn't belong?

10 + 10 + 10

three 10s

What would need to happen for it to belong with the other representations?
Explain your answer.

To be able to add equal groups

MathShed

Evaluation:

5 + 5
has the same total as
2 + 2 + 2 + 2 + 2

Do you agree?
Use sketches or mathematical equipment to explain your answer.
